

Figure 1

```
graph LR; Stimulus --> Subject; Stimulus --> Computer[Computer Program]; Subject -- Response --> Comparison[Comparison]; Computer -- Stored Response --> Comparison; Comparison -- Feedback --> Stimulus;
```

The diagram illustrates a closed-loop system where a stimulus is presented to a subject and a computer program. The subject's response is compared against a stored response from the computer. This comparison feeds back into the stimulus, creating a continuous cycle.

ARTLEY ET AL.

Art Unit	Unit Title	Unit Description	Unit Objectives	Unit Activities	Unit Assessments	Unit Resources	Unit Materials	Unit Notes
1	Unit 1: Introduction to Art	Introduction to Art and the Art Process	Students will understand the basic elements and principles of art.	Students will create a simple artwork using the elements and principles of art.	Students will be able to identify and describe the elements and principles of art.	Students will be able to create a simple artwork using the elements and principles of art.	Students will be able to create a simple artwork using the elements and principles of art.	Students will be able to create a simple artwork using the elements and principles of art.
2	Unit 2: Drawing	Drawing Techniques and Materials	Students will understand the basic techniques and materials used in drawing.	Students will create a simple drawing using the techniques and materials used in drawing.	Students will be able to identify and describe the techniques and materials used in drawing.	Students will be able to create a simple drawing using the techniques and materials used in drawing.	Students will be able to create a simple drawing using the techniques and materials used in drawing.	Students will be able to create a simple drawing using the techniques and materials used in drawing.
3	Unit 3: Painting	Painting Techniques and Materials	Students will understand the basic techniques and materials used in painting.	Students will create a simple painting using the techniques and materials used in painting.	Students will be able to identify and describe the techniques and materials used in painting.	Students will be able to create a simple painting using the techniques and materials used in painting.	Students will be able to create a simple painting using the techniques and materials used in painting.	Students will be able to create a simple painting using the techniques and materials used in painting.
4	Unit 4: Sculpture	Sculpture Techniques and Materials	Students will understand the basic techniques and materials used in sculpture.	Students will create a simple sculpture using the techniques and materials used in sculpture.	Students will be able to identify and describe the techniques and materials used in sculpture.	Students will be able to create a simple sculpture using the techniques and materials used in sculpture.	Students will be able to create a simple sculpture using the techniques and materials used in sculpture.	Students will be able to create a simple sculpture using the techniques and materials used in sculpture.
5	Unit 5: Printmaking	Printmaking Techniques and Materials	Students will understand the basic techniques and materials used in printmaking.	Students will create a simple print using the techniques and materials used in printmaking.	Students will be able to identify and describe the techniques and materials used in printmaking.	Students will be able to create a simple print using the techniques and materials used in printmaking.	Students will be able to create a simple print using the techniques and materials used in printmaking.	Students will be able to create a simple print using the techniques and materials used in printmaking.
6	Unit 6: Digital Art	Digital Art Techniques and Materials	Students will understand the basic techniques and materials used in digital art.	Students will create a simple digital artwork using the techniques and materials used in digital art.	Students will be able to identify and describe the techniques and materials used in digital art.	Students will be able to create a simple digital artwork using the techniques and materials used in digital art.	Students will be able to create a simple digital artwork using the techniques and materials used in digital art.	Students will be able to create a simple digital artwork using the techniques and materials used in digital art.
7	Unit 7: Art History	Art History Techniques and Materials	Students will understand the basic techniques and materials used in art history.	Students will create a simple art history project using the techniques and materials used in art history.	Students will be able to identify and describe the techniques and materials used in art history.	Students will be able to create a simple art history project using the techniques and materials used in art history.	Students will be able to create a simple art history project using the techniques and materials used in art history.	Students will be able to create a simple art history project using the techniques and materials used in art history.
8	Unit 8: Art Appreciation	Art Appreciation Techniques and Materials	Students will understand the basic techniques and materials used in art appreciation.	Students will create a simple art appreciation project using the techniques and materials used in art appreciation.	Students will be able to identify and describe the techniques and materials used in art appreciation.	Students will be able to create a simple art appreciation project using the techniques and materials used in art appreciation.	Students will be able to create a simple art appreciation project using the techniques and materials used in art appreciation.	Students will be able to create a simple art appreciation project using the techniques and materials used in art appreciation.
